

# STEEL INDUSTRY NOZZLES

With over 30 years experience, we offer a complete range of spray nozzles and spraying systems for use in steel mills, with processes ranging from cooling of slabs, blooms and billets to the cooling, cleaning and rinsing of steel and strip. We also have nozzles for roll cooling, nozzles for rinsing and cooling in pickling lines, nozzles for quenching and cooling in coke plants and nozzles for liquor flushing. In addition we have nozzles and systems for dust and pollution control.

Below we show a flow line of the steel making process and areas that benefit from quality spray nozzle products.
